64.6%

PROJECTS

Portfolio
Developed a responsive portfolio website with a modern UI, glassmorphism effects, and smooth animations
using HTML, CSS, and JavaScript, three.js, taildwincss and GSAP.

Sudoku Solver
Developed an interactive Sudoku game with real-time input validation and logical problem-solving features.
The application ensures correct gameplay and enhances user engagement through a clean and responsive interface.

AI Agent & Chatbot
Built an AI-based chatbot capable of understanding user queries and providing automated responses.
Designed to improve user interaction using intelligent logic and a simple, user-friendly chat interface.

Car Rental Booking System
Developed a web-based car rental system for browsing, booking, and managing vehicles online.
Includes user authentication, booking management, and an efficient system for handling rental records.

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional [View]
Demonstrated knowledge of Generative AI concepts, OCI AI services, and building AI-driven solutions using cloud-based technologies.

Oracle Cloud Infrastructure 2025 Certified DevOps Professional [View]
Certified in DevOps practices including CI/CD pipelines, automation, cloud infrastructure management, and monitoring using OC I.

Internship Common Aptitude Test (ICAT) [View]
Demonstrated strong aptitude in logical thinking, quantitative ability, and technical fundamentals required for internships and entry -level roles.
